SPRING/SUMMER

Our Candle Story

The finest wax is gently warmed up and the fragrance blended in. It is stirred continuously to ensure even distribution through the wax. Using only the finest ingredients, we create timeless classics that are both distinctive and evocative.

Each cotton wick is carefully straightened by hand, one by one. Once the wax is set each wick is neatly trimmed.

Every candle is cleaned and polished by hand for an immaculate finish. Labels are applied and the candle is carefully gift-packaged, all ready for you to enjoy.

The natural wax we use in some of our candles is our own secret blend and benefits from a clean burn and excellent scent throw.

Our high standards mean we produce the finest home fragrances, every time.

Our Botanic and Nature's Gift collections are handmade, with each piece featuring unique details. Small irregularities are a characteristic of these collections. All are made with natural flowers/botanicals/fruits, meaning that texture and colour can vary per harvest or source. This only adds to the charm of the products and sets them apart from mass produced, machine-made candles and diffusers. All of our wooden wicks are naturally processed and sourced from Forest Stewardship Council (FSC) certified mills and manufactured with pride. Whilst every care has been taken to ensure that the description, sizes and prices are correct at the time of publication, we reserve the right to amend without prior notice. Prices are subject to VAT at the prevailing UK rate. All products are subject to availability. All prices detailed are price per item; pack sizes quoted for information only, unless otherwise stated. For pack prices, please see order form.

Our products are CLP compliant.
