

LACE & DECK
IN-OUTDOOR RUG COLLECTION
BRINK & CAMPMAN '23

B&C

For the sunny season we have developed the bold and energetic DECK series in distinct colours. Let the spring and summer come and see the DECK in dazzling electric blue that reminds you of the Mediterranean sea, or the 'DECK spring green' in a very vibrant green!

The successful LACE series has been complemented by the LACE tricolore. Next to the subdued colour palette we have added three refined colourways. Beautiful colour combinations reminiscent of sun-drenched long evenings or funky parties.

Both the DECK and the LACE series are hand-woven rugs and feature unique textures in which the enchanting colours perform at their best. The textures are soft to the touch and consist of woven ropes that form an exciting pattern. You can lay the rugs wherever you like, they all add that special extra to the floor.

Enjoy the sun, enjoy your rug!

A photograph of a swimming pool with a wooden deck. In the foreground, a rectangular rug with a diagonal pattern of blue and beige stripes is laid out on the deck. The pool water is a vibrant blue with gentle ripples. The text "Enjoy the sun, enjoy your rug!" is centered over the pool water, with a small horizontal line underneath it.

Care instructions | In-Outdoor rug collection

This beautiful handwoven rug can be used both indoors and outdoors, made to withstand all environments. The rug is soft to the touch, high durable, water resistant, and easy to clean with a mild detergent.

To extend the longevity of the rug we advise you to store it away during bad weather and winter months. When it has been raining cats and dogs and your rug is soaked to the skin it would be good to remove it from the area and turn it upside down to dry the backside first before you turn it back.

At Brink & Campman we make collections of thoughtfully designed premium rugs. Brink & Campman has over 125 years of experience doing so. The craft of rug making means that no two rugs are exactly alike. The natural materials used in a handcrafted product might cause deviations in colour, texture or size.
